## ENERGY-SAVING

The IDM helps you speed up the drying process. The IDM is equipped with LED light technology and a cost-saving ventilation system.

Where a normal dryer quickly consumes a lot of energy, the IDM offers a good drying performance at a lower cost.

## EASY TO INSTALL

The IDM is delivered assembled and is easy to install within 15 minutes.

An electrical connection is required for this model.

## LOAD CAPACITY

Where an average dryer can hold up to 8 kilos, the IDM offers hanging space for up to 35 kilos! The IDM consists of 2 clothes racks, 28 hanging points and an extendable rack.

Not enough space to hang up your fine laundry? The Multihanger offers the ultimate solution.

## CHILD SAFETY

The IDM provides an automatic stop system. This system is designed to ensure the best safety.

## SPACE SAVING

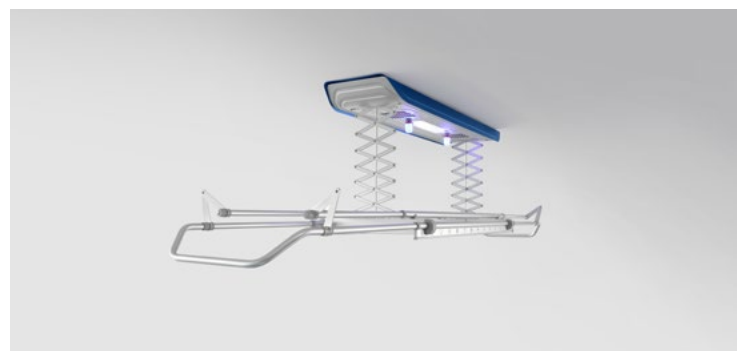

Does it seem an impossible task to hang blankets and sheets? Does your drying rack collapse every time with heavy laundry? And do you have to move your drying rack all the time?

Create more space with the automatic system and let the IDM easily dry clothes in the air with just one push on the remote button.

## CE QUALITY MARK

The IDM meets legal CE requirements for safety, health and environment.

# ADDITIONAL ACCESSORY THE IDM MULTIHANGER

The IDM Multihanger becomes an essential accessory for your IDM. The IDM Multihanger is easy to attach and is ideal for drying your socks, underwear, flannels, baby clothes and other small items.

It comes with strong hooks, 7 drying racks and 15 clips.
